EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jennifer Hayes on 27 October 2005.

The application has been amended as follows:

Claims 16-25 have been cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reasons for allowance for claims 1-15 is that applicant's claimed invention includes a liquid ejection head having a metallic chamber formation plate, having a first region in which a plurality of pressure generating chambers are formed, and a second region in which a plurality of dents are formed, wherein each of the dents prevents ink from flowing therein. It is this limitation, expressed in the claimed combination not found, taught, or suggested in the prior art, that makes these claims allowable over the prior art. Thus, the residual stress in the in the first region and the residual stress in the second region are made as uniform as possible so that strain deformation is corrected.

The examiner makes of record that the previous claim objections dated 18 April 2005 are withdrawn in view of applicant's remarks.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Geoffrey Mruk whose telephone number is 571 272-2810. The examiner can normally be reached on 7am - 330pm.
